Serial No.: 10/648,733

Filed: 08/26/2003

Art Unit/Examiner: 3641/Johnson, Stephen

For: BREECH CONSTRUCTION FOR
FIREARMSThis Correspondence Express Mailed: 08-10-05The Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Response To Office Communication of 06-14-05

This response is an addendum to Applicants response of 06-01-05 and speaks in addition only to the omissions or corrections noted in the Office Communication.

Submitted herewith a section for "amendments to the specification" by way of a marked-up copy of replacement pages 3 and 5 and a clean version (original numbering), ~~and amendments to the drawings in~~ accordance with 37 CFR 1.121 changes of 7-30-03. It is noted that original page 4 was not amended and its presentation in this response would appear to be unnecessary. These amendments are believed to obviate the objections, 112 rejections and the rejection of claim 3 and to place the application in condition for allowance.

I hereby certify that this correspondence is being
Deposited with the United States Postal Service asExpress Mail in an envelope addressed to:
